Final Grade report was released on 19th September and certificate release and Batch Conclusion on 26th September' 2022. The Assessment pattern includes Discussion Forum, Video Views, Time spent on the course, Mandatory Webinar Attendance and Attempting Un – graded Questions. Sustainable Business Strategy provides participants with the knowledge and tools to become purpose-driven business leaders. This course explores the different business models that companies can use to drive change and explains why purpose-driven businesses are particularly well positioned to tackle the world's biggest problems.Students will learn how to influence management and other key stakeholders on the competitive advantages of being a purpose-driven firm, and how to integrate your values into your work so that you can help transform firms into catalysts for system-level change. Understand the business case for change and apply business models that create shared value • Analyze industry disruptions and business uncertainties and create scenario analyses to develop smart strategic options. Understand what purpose-driven firms are and why they are successful • Examine the "Wheel of Change" and how business is a key catalyst to solve large global issues like climate change and income inequality • Analyze cooperative action examples to understand how and why firms cooperate and why it's necessary to enact change. Analyze the investor's role, including the role of stakeholder management, alternative governance, Environmental, Social & Governance metrics, and impact investing • Evaluate the role of governments and other institutions in largescale change

	and understand why "Systems Thinking" is necessary • Develop a personal plan for what YOU can do.
