## STOCK MARKET OPERATIONS WORKSHOP

<b>Title</b>	MBA Workshop – “Stock Market Operations”
<b>Department</b>	Department of Management Studies
<b>Date</b>	30 <sup>th</sup> of AUGUST’ 2023
<b>Time</b>	10.00 AM to 1.00 PM
<b>Speaker Name</b>	Mr. Kishore, CEO – Stock Market Institute, Co - Founder – Stock Byte
<b>Brief Description</b>	<p>Department of Management Studies, NHCE had organized a workshop in “Stock Market Operations” for all the 3 sections of II Semester MBA students. The Honourable speaker of this session was Mr. Kishore, CEO – Stock Market Institute. Stock analysis is the evaluation of a particular trading instrument, an investment sector, or the market as a whole. Stock analysts attempt to determine the future activity of an instrument, sector, or market. Stock analysis is the practice of using information and analysing data to make investment decisions. One popular form of stock analysis is fundamental analysis, the practice of using financial activity to forecast stock prices. Another popular form of stock analysis is technical analysis, the reliance of historical stock price activity to predict future price activity. Other less common forms of stock analysis include sentiment analysis and quantitative analysis. Investors may have unpredictable or limited information which makes stock analysis difficult. The notion of stock analysis relies on the assumption that available market information can be used to determine the intrinsic value of a stock. In the primary methods discussed below, investors use financial statements, stock price movement, market indicators, or industry trends to make investment decisions.</p> <p>Mr. Kishore, from Stock Market Institute gave a detailed information on Investment, Trading and options for trading. We thank Dr Guru Basava Aradhya, Head of department of Management studies for organizing such an insightful session that is relevant to the industry and for constantly encouraging and motivating students.</p>
