

NEW HORIZON COLLEGE OF ENGINEERING

From Campus to Corporate: Adapting to Changing Industry Trends

Date : 1st December 2025

Venue: Manthan Seminar Hall

Brief Description of the Event

The alumni talk titled “From Campus to Corporate: Adapting to Changing Industry Trends” by Mr. Srihari T. S., Tax Consultant at Eisner Amper LLP, provided students with valuable insights into the evolving expectations of the corporate world. Drawing from his experience in leading firms such as Grant Thornton and Clean Harbors, Mr. Srihari highlighted the importance of continuous learning, technical competency, and professional discipline. He emphasised how industry trends such as digital transformation, data-driven decision-making, and global tax compliance are reshaping corporate roles.

Students gained clarity on the skills required to transition successfully from academic life to professional environments, including communication, teamwork, analytical thinking, and adaptability. Additionally, he shared practical tips on career planning, workplace ethics, and developing a proactive mindset. The session was highly engaging and inspired students to prepare strategically for future opportunities in a competitive global industry landscape.

Conclusion

The session by Mr. Srihari T. S. effectively bridged the gap between academic learning and corporate expectations. His practical insights on emerging industry trends, professional skill development, and real-world challenges helped students understand the dynamic nature of today’s corporate environment.

The talk encouraged learners to remain adaptable, technologically skilled, and ethically responsible as they prepare for future careers. Overall, the session served as a valuable guide for students aspiring to succeed in the corporate world, motivating them to focus on continuous improvement, and strategic career planning.
