

# NEW HORIZON COLLEGE OF ENGINEERING

## **Future of Work: What High-Performing Organisations Expect and How Students can Start Now**

**Date :** 4<sup>th</sup> December 2025

**Venue:** Falconry Seminar Hall

### **Brief Description of the Event**

The alumni talk on “Future of Work: What High Performing Organisations Expect – and How Students Can Start Now” was conducted by Ms. Pooja Kumar, Chief of Staff Office Consultant at Wissen Technology. She offered valuable insights into the rapidly evolving workplace landscape. She highlighted how digital transformation, automation, and data-driven decision-making are reshaping organisational expectations.

Ms. Pooja emphasised the importance of adaptability, continuous learning, and a growth-oriented mindset as key traits sought by top-performing companies. She discussed essential skills including problem-solving, communication, teamwork, and technological literacy, stressing that students must invest in both technical and soft skills to stay competitive.

The session also focused on the need for self-discipline, proactive career planning, and building a strong professional identity through internships, projects, and networking. Overall, the talk guided students on aligning their capabilities with industry requirements and preparing themselves for future career success.

### **Conclusion**

The session by Ms. Pooja Kumar provided a clear understanding of the skills and attitudes needed to excel in the future workplace. She encouraged students to take early action, embrace learning, and remain adaptable to change. Her insights motivated students to prepare strategically, enhance their competencies, and position themselves confidently for opportunities in high-performing organisations.
