

NEW HORIZON COLLEGE OF ENGINEERING

Event Name: Emerging Trends in Industry and Future Career Opportunities

Date: 26th May 2026

Venue: Manthan Seminar Hall

Brief Description of the Event

An Alumni Talk on the topic “Emerging Trends in Industry and Future Career Opportunities” was conducted by alumnus Toshith Ashwin for the students. The session aimed to create awareness about the latest developments in various industries and guide students on future career prospects. Toshith Ashwin shared valuable insights on emerging technologies, industry expectations, required skill sets, and the importance of continuous learning and adaptability in today’s competitive world.

The speaker also highlighted career opportunities in fields such as Artificial Intelligence, Data Science, Automation, and Digital Technologies. Students gained practical knowledge about industry demands, professional growth, and strategies to prepare for future careers. The interactive session motivated students to enhance their technical and communication skills to meet evolving industry standards.

A total of 124 students of 2nd semester attended the session enthusiastically and actively participated in the interaction. Overall, the alumni talk was highly informative, inspiring, and beneficial for the students.

No of Participants: 124
