

New Horizon College Of Engineering
Department of Management Studies
Future Of Analytics In The Age of Artificial Intelligence
Feedback - 7th August 2026

Name (As required in Certificate)	Employee ID	Institution / Organisation Name	E-Mail ID	Phone Number	How would you rate the overall quality and usefulness of the workshop?	How confident are you in applying these AI data visualisation tools demonstrated during the workshop for your academic research?	Which Data Visualisation AI Tool did you find most valuable, and why?	The overall content, organisation, and delivery of the FDP met my expectations.	Please share your suggestions or comments to improve future sessions.
Mradula	Nh-1707	NHCE	mradula_cse_nhce@newhorizonindia.edu	97591 61395	Good	Confident	One of the most valuable AI-powered data visualization tools I have found is Tableau with Tableau, Why it is valuable: It automatically suggests the most appropriate charts and graphs based on the dataset.	Agree	Valuable session
D LINCY RANJANA	NH-1661	NHCE	david.l_cse2_nhce@newhorizonindia.edu	9360753748	Good	Confident	I found Tableau to be the most valuable data visualization AI tool because it creates interactive and insightful dashboards quickly. It helps transform complex data into clear visualizations, making analysis and decision-making much easier.	Agree	Nil
